

## NFC Starter Kit

Never before exploring the benefits of NFC technology has been easier.

The **NFC Starter Kit** from NEXPERTS contains everything you need to demonstrate NFC application scenarios: Inside the box you get an NFC enabled mobile phone, an NFC PC reader and demo posters with tags as well as a lot of software.

The NFC Starter Kit is a powerful demonstration tool. The included NFC communication libraries allow to creating simple NFC applications on your own. Inside the package an NFC mobile phone (Nokia 6212 classic) and a NFC PC-Reader as well as a comprehensive users manual is contained.

On the Nokia NFC phone you get standard NFC functions and pre-installed NFC demo applications (NFC-Wallet, NFC-Guard, NFC-Ticket, NFC-Communicator) to test various application scenarios.
